

Sanitary Napkins

Integrated flexo printing solution

Sanitary Napkins

Integrated flexo printing solution

Boost your sanitary napkin brand with TRESU's new integrated printing solution. Fully automated and built to the highest standards of safety, this unit offers the flexibility to apply unique designs with perfect register, inline without compromise in production speed.

- Designed with the highest levels of automation for controlled, precise print speed and ink flow
- Fully servo-driven
- TRESU ink supply systems available - e.g. with integrated cleaning and viscosity control
- Efficient TRESU drying system for water based inks
- Customised to the speed of the sanitary napkins converting machine
- Sealed, pressure-controlled chambered doctor blade systems enable direct, foam-free transfer of ink or coating to the anilox rollers, ensuring a consistently clean printed image
